EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 24 February 2010, Mr. Raymond D. Smith requested an extension of time for SECOND MONTH and authorized the Director to charge Deposit Account No. 11-1410 the required fee of \$490 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

On 11 February 2010, a proposed amendment in condition for allowance was discussed with Mr. Raymond D. Smith, Applicants' attorney, in a telephone interview. Authorization for this examiner's amendment was given in a telephone interview with Mr. Raymond D. Smith on 24 February 2010.

The application has been amended as follows:

- Claims 41 and 43 have been amended as listed below.

- Claims 11 and 45-48 are cancelled as listed below.
- Note: for those claims that are neither amended nor canceled as indicated in this Examiner's Amendment, see the amendment filed on 5 February 2010.

DETAILED ACTION

This Office Action is in response to Applicants' proposed amendment and remarks After Final, filed on 5 February 2010.

Applicants' proposed amendment has been entered.

REASONS FOR ALLOWANCE

Claims 1, 13-17 and 37-44 are seen to be allowable.

The following is an examiner's statement of reasons for allowance: The claims of the instant application, as amended now (see Examiner's Amendment above), are not seen to be taught or fairly suggested in the prior art.

Applicants' amendment and remarks, filed 5 February 2010, with respect to the rejection of claim 41 under 35 USC § 112, second paragraph, for lack of antecedent basis, have been fully considered and are persuasive because the claim has been amended to be in independent form. This rejection has been **withdrawn**.

Applicants' amendment and remarks, filed 5 February 2010, with respect to the rejection of claims 1 and 37-40 under 35 USC § 102(b), as being anticipated by Takido *et al.*, have been fully considered and is persuasive because the claims have been amended to recite that the alkyl group is unsubstituted. The alkyl group disclosed in Takido *et al.* is substituted with a hydroxyl group and it would not be obvious for one of ordinary skill in the art to remove the hydroxyl group to arrive at Applicants' instantly claimed invention. This rejection has been **withdrawn**.

Applicants' amendment and remarks, filed 5 February 2010, with respect to the rejection of claims 13-17 under 35 USC § 103(a), as being unpatentable over Takido *et al.*, as applied to claims 1 and 37-40, further in view of WIPO publication WO 2001/79241 to Weiss *et al.*, have been fully considered and is persuasive because the claims have been amended to recite that the alkyl group is unsubstituted. The alkyl group disclosed in Takido *et al.* is substituted with a hydroxyl group and it would not be obvious for one of ordinary skill in the art to remove the hydroxyl group to arrive at Applicants' instantly claimed compound. Furthermore, as the instantly claimed compounds are not obvious, one of ordinary skill in the art would have no motivation to use the methods disclosed by Weiss *et al.* to synthesize such compounds. This rejection has been **withdrawn**.

The synthesis of compounds of formula (I) and claim 41 are shown in Examples 1-1 to 1-7 and Table 1-1 of the instant specification, including full characterization of the compounds. Hence, these compounds are enabled and have sufficient written description in the specification.

Accordingly, the Examiner's amendment is sufficient to place the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
